

GLEN LEE WOOD

May 26, 1951 - December 27, 2018

Glen spent his childhood growing up in Idaho and Utah. His Father, Glen Sr. and Mother, Alberta had four children together, Mike, Glen, Pat, and Lisa. At the age of 17 Glen joined the United States Marine Corp (or as he used to say “the USMC, University of Science Music and Culture” 😊). He served two active duty tours, one in Vietnam and again during Desert Storm. For most of his working life Glen was a butcher by trade, however, in the last years before retiring he enjoyed work as a long-haul truck driver. He often spoke of how grateful he was to have had the opportunity to travel the United States and boasted that he spent time in 47 of our 50 states. Glen loved the outdoors and spent as much time as he could fishing and camping. He would do anything for a friend and enjoyed nothing more than riding his Harley and having barbeques with kindred spirits. Glen lived a full life and adventurous life and lived it on his terms (for better or for worse 😊). Grateful to have called you my dad, you will be missed.....

“ Glen preferred reading over conversation, so it was always my challenge to get him to acknowledge and speak when I visited him and my sister. My best friend and I would stand in front of Glen while he read his book until he would lower the book and ask “ What do you want” . We relied/ for you to talk to us. We could see his smile behind the book, he would tell us ok - I have talked to you , now get lost. (we knew he loved us giving him a bad time). You will be missed Glen, I have memories of you being funny and will always remember your friendly smile.
